	<b>“CHOICE” Navigator under E3 Partnerships Special Populations</b>		Reed	process		<b>Mention e3 Partnerships</b>	Aeronautics and Aviation, Information Technology, and Construction, three industries vital to the 21st century economy. The Okaloosa County School Board and JobsPlus Youth Stops together created the innovative educational approach of establishing three sector-specific institutes on high school campuses. These institutes help students gain the skills they need to enter the target fields. At the same time, students may earn college credit and aeronautical certification. A valuable component of the program provides students with multiple options when choosing curricula, catering to low-skilled or at-risk youth. These multiple pathways exemplify the “choice” element of this innovative program.  <a href="http://www.doleta.gov/roe/Docs/ROE2005new_AwardsBook.pdf">http://www.doleta.gov/roe/Docs/ROE2005new_AwardsBook.pdf</a>
